

PROJECT EXPERIENCE

Ballpark Commons - Franklin, WI

Conducted a wetland delineation on 120 acres of a landfill and an old field. Applied for and received Artificial Exemption on many of the wetland areas. Applied for and received an Individual Wetland Permit for the development of a sports facility, commercial, and multifamily residential complex. Applied for and received a Natural Resource Special Exception Permit from the City of Franklin. Designed and created a management and planting plan for enhancement of existing wetland on the site.

Upper Macatawa Natural Area- Zeeland, MI

Conducted a full botanical inventory and wetland delineation of 500 acres of farmland and woods. Assisted with the design, permitting, and construction monitoring of wetland restoration areas.

Lake Station Mitigation Bank- Chesterton, IN

Conducted mitigation monitoring plant surveys on 223 acres of mitigation wetland for four years.

Residential Development- Greenville, WI

Conducted a wetland delineation on 72 acres of farmland for a proposed residential subdivision.

Residential Development- Verona, WI

Conducted a wetland delineation on 200 acres of farmland for a proposed residential subdivision.

Verona Area School District- Verona, WI

Conducted a wetland delineation on 170 acres of farmland and woodland for a proposed high school and associated facilities.

Rainbow Daycare- Menomonee Falls, WI

Conducted a wetland delineation on 3 acres of old field/lawn for a proposed daycare facility.

Residential Development- Cottage Grove, WI

Conducted a wetland delineation on 38 acres of farmland/woods for a residential subdivision.

Bartel Grassland Mitigation Bank- Matteson, IL

Conducted mitigation monitoring plant surveys on 585 acres of mitigation wetland. Conducted an as-built wetland delineation in the final year.

OUR WETLAND SERVICES INCLUDE:

- Wetland Delineations
- Wetland Permitting
- Wetland Mitigation Design
- Wetland Enhancement & Restoration
- Wetland Mitigation Monitoring

HELIANTHUS is an S/W/DBE certified firm.

WETLAND SERVICES

KRISTI'S QUALIFICATIONS

Kristi Sherfinski has almost 20 years of experience delineating wetlands in the Great Lakes Region. Kristi worked as a project manager and wetland delineator at an environmental consulting firm in Grand Haven, Michigan, conducting wetland delineations in Michigan, Indiana, Illinois, and Wisconsin. Kristi then moved to Wisconsin to work for the Southeastern Wisconsin Regional Planning Commission (SEWRPC), where she updated the Wisconsin Wetland Inventory (WWI) for all of southeastern Wisconsin. With her M.S. in Botany and B.S. in Landscape Architecture, Kristi brings ecological-based thinking to the built environment. Her knowledge of native plants in their natural habitats allows her to successfully incorporate them into landscape designs and to create functional, beautiful, and ecologically sound wetlands.

PROJECT EXPERIENCE

Taylor Frac Railroad Facility - Taylor, WI

Conducted a wetland delineation on 100 acres of land in the Trempealeau River floodplain, identifying farmed wetlands after a record flood event. Applied for and received artificial exemption status and an Individual Wetland Permit for expansion of the facilities. Also successfully applied for an Eagle Take Permit with USFWS.

Imperial Blades - Sun Prairie, WI

Conducted a wetland delineation on a developed parcel for expansion of their facilities.

Memorial Medical Center - Neillsville, WI

Conducted a wetland delineation on 54 acres of farmland and floodplain along the Black River for a proposed medical facility.

Village of Mukwonago Industrial Park - WI

Conducted a wetland delineation on over 200 acres of farmland and forest for a proposed industrial park expansion for the Village of Mukwonago.

Clack Corporation - Windsor, WI

Conducted a wetland delineation on a developed parcel for a proposed expansion of their facilities. Applied for an Individual Wetland Permit.

Alta Genetics - Watertown, WI

Conducted a wetland delineation on 5 acres of farmland and applied for and received a General Wetland Permit to build a loading facility.

Sun Prairie Industrial Park - Sun Prairie, WI

Conducted a wetland delineation on 95 acres of farmland and old field for a proposed industrial park expansion for the Village of Sun Prairie. Applied for and received an Individual Wetland Permit for the access road.
